

# Angling Indiana - FISH CONSUMPTION ADVISORY

Location	Species	Fish Size	Contaminant	Group
<b>Kilmore Creek</b> Clinton County	Common Carp	up to 12 12+	PCB	unrestricted 1 meal / week (8 ounces / week)
<b>South Fork Wildcat Creek</b> Consumption of fish from the South Fork of the Wildcat Creek in Clinton County should be limited to no more than one meal per month (Group 3) by the general population and NO CONSUMPTION by the sensitive population. Exceptions to this advice for the general population are below.				
Clinton County	Common Carp	up to 15	PCB	1 meal / week (8 ounces / week)
		15-20	PCB	1 meal / month (8 ounces / month)
		20-25	PCB	1 meal / 2months (8 ounces / 2 months)
		25+	PCB	Do not eat

General Population

\*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

\*\*The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
